

ZAID SHAHEED M

Computer Scientist

Personal Details:

Date Of Birth: 30 April 2008

Age: 17.2 years

Gender: Male

Nationality: Indian

Location: Al Majaz 1, Sharjah, United Arab Emirates

Contact: zaidshaheed1234@gmail.com | +971 54 590 0728

Career Objective:

I am a motivated and technically driven Year 13 (A Level) student with a strong academic foundation in Computer Science, Physics, and Mathematics. Eager to gain firsthand experience through internships and technical projects. Enthusiastic about software development and digital systems, with the goal of building a career focused on innovative technology solutions and real-world problem-solving.

Education:

High School – IGCSE | September 2022 – June 2024

Gems Cambridge Sharjah

Sixth Form – A Levels | September 2024 – June 2026 (Expected)

Physics, Mathematics, Computer Science at Gems Cambridge Sharjah

Hobbies:

Casual Sports

Online Gaming

Programming

Reading

Languages:

English

Hindi

Arabic (Beginner)

Technical Skills:

Proficient in Python, HTML, and CSS with experience in web development, automation, and data visualization using tools like Perspective.js and Excel. Familiar with data analysis, basic algorithm design, and foundational AI concepts.

Soft Skills:

Strong problem-solving and analytical skills, with experience in leadership, communication, and teamwork through roles like Head of Technology for GCSMUN. Self-driven and quick to adapt in collaborative environments.

Creative & Applied Skills:

Skilled in combining creativity with code to design user-friendly solutions. Enjoy applying theoretical knowledge to real-world tasks, especially in digital innovation and interface development.

Experience:

- Completed the J.P. Morgan Software Engineering Virtual Experience on Forage, where I set up a local dev environment, fixed broken application files, and created a live data visualization using the Perspective library (21 July 2024).
 - Set up a local development environment and resolved 5+ codebase errors to restore full web application functionality
 - Visualized 1,000+ real-time data points using Perspective.js to create a dynamic, trader-facing graph interface
- Completed the Accenture North America Data Analytics and Visualization Virtual Experience on Forage, where I cleaned and analyzed multiple datasets, identified content trends, and delivered key insights through a presentation and client-ready report (30 June 2024).
 - Cleaned and analyzed 7 datasets containing 5,000+ data entries to identify key social media content trends
 - Designed a 10-slide client presentation summarizing insights and recommendations to guide data-driven decisions

ACHIEVEMENTS

Qutuhul Inter-School Competition (2022)

Qutuhul Season 4 was an interschool innovation and entrepreneurship competition where I secured first place for presenting a creative and impactful business project.

Junior Coder's Toolkit (August 2021)

I participated in the *Junior Coder's Toolkit* program, where I secured first place in the HTML module by designing a functional and well-structured webpage using HTML and CSS.

SKILLS

Presentation

Website Development

Problem Solving

Teamwork

CORE STRENGTHS:

- Leadership experience managing digital platforms as Head of Technology for GCSMUN.
- Effective communicator with experience working in collaborative and academic settings.
- Quick learner with a logical mindset and strong attention to detail, especially in technical problem-solving.
- Balanced mix of technical ability and soft skills, including adaptability, time management, and initiative in team environments.
